EDUCATION

SRI SAIRAM ENGINEERING COLLEGE - 2023-2027

- B.E. - Computer Science and Engineering
- CGPA: 8.59/10

PENIEL MATRICULATION HIGHER SECONDARY SCHOOL - 2017-2018

- HSC (12th Grade): 85.17% — Biology Stream (Bio-Maths)
- Board: Tamil Nadu State Board

PROJECTS

SPECTROGUIDE – AI-Powered Accessibility Tool for the Visually Impaired

Tech Stack: Python, OpenCV, YOLOv8, OCR, Computer Vision, Text-to-Speech (pyttsx3)

- Developed an assistive system using Python, OpenCV, and TensorFlow for real-time object detection and audio-based navigation.
- Implemented fruit and vegetable freshness detection, OCR-based product information extraction, and text-to-speech feedback to support independent shopping.
- Incorporated a separate facial emotion recognition module to help visually impaired users understand social interactions.

ECOBOT – Smart Waste Management System

Tech Stack: IoT, Arduino, Machine Learning, Sensors, Mobile App Development, Backend APIs, Database, Web Dashboard

- Developed a smart waste management solution using Python, IoT sensors, and Machine Learning for intelligent waste monitoring and segregation.
- Integrated Firebase for real-time monitoring, data management, and alerts to improve waste collection efficiency.
- Applied data analytics and automation to support efficient waste management and sustainable recycling.

WORK EXPERIENCE

NATIONAL INSTITUTE OF WIND ENERGY - DevOps Intern (Chennai) **2025-JUN**

- Deployed and managed Snipe-IT for IT asset management using Linux, NGINX, MySQL, and PHP, implemented Docker and Kubernetes for containerization and application deployment, and developed an IoT-based real-time temperature monitoring system using Arduino Uno and LM35 sensors.

CISCO **2025-JUL**

- Gained practical knowledge of Networking Essentials using Cisco Packet Tracer, including network topology design, router and switch configuration, network troubleshooting, connectivity testing, and basic network security.

IBM SKILLBUILD **2025-AUG**

- Completed an industry-oriented Artificial Intelligence internship in association with Edunet Foundation, gaining hands-on experience in AI tools, software development, and project implementation, and developed an AI-powered portfolio website using modern web development techniques.

SERVICENOW **2026-APR**

- Completed Certified System Administrator (CSA) exam preparation and ServiceNow micro-certification modules, gaining knowledge of ServiceNow Administration, Agentic AI, Flow Designer, Automated Test Framework (ATF), report generation, and workflow automation.

INFOSYS SPRINGBOARD **2026-AUG**

- Developed a full-stack coding practice platform using Spring Boot, React.js, and PostgreSQL, featuring a Monaco Editor, Docker-based sandboxed code execution, automated test case evaluation with resource limits, and a progress dashboard and leaderboard to track coding performance, accuracy, and rankings.

ACHIEVEMENTS

- Published a research paper in Computer Vision at the IEEE ICTMSD 2026 Conference.
- Successfully completed NPTEL Certification in Internet of Things with Silver Top 5%.
- Earned 15+ Skill rack certifications in Java, C and Python.
- Served as a MAGIC MEMBER in Skill Development Club and coordinated many offline and online events.
- Completed certifications in Generative AI, MongoDB, Cloud Computing, Machine Learning, Data Analytics.

SKILLS

- Languages: Java, C, Python, SQL
- Frameworks: Spring Boot, React.js
- Databases: MySQL, MongoDB
- Cloud & DevOps: AWS, Docker, Kubernetes
- Tools: Git, GitHub, Android Studio, Figma
- Core CS: Data Structures, OOPS, DBMS, OperatingSystem, Computer Networks
- Domains / Focus Areas: Web Development, Machine Learning, Artificial Intelligence
